Vasanthakumar S

Automation Engineer | *n8n Workflow Automation* | *Python* | *API & UI Test Automation*

+91 6374472809 | vaaaasanth7@gmail.com | linkedin.com/in/vasanthkumar7 | github.com/SAVS7 | savs7.github.io

TECHNICAL SKILLS

Workflow Automation	n8n, Business Process Automation, Approval Workflows, Email Notifications
API & Integration	REST APIs, Webhooks, JSON, Postman, Python Requests
Test Automation	Selenium WebDriver, PyTest (Fixtures), Page Object Model (POM), Allure Reports
Data & BI	SQL, MySQL, Baserow, Apache Superset
Programming	Python
Tools & Platforms	Git, GitHub, Docker, Linux/Unix, Windows

PROFESSIONAL EXPERIENCE

People and Operations Intern **Aug 2026 – Sep 2026**
Acumen Advisory Consulting LLC

- Built an internal approval workflow in **n8n**, from form intake through to approval and status updates.
- Integrated forms with **Baserow** to capture and manage request data.
- Automated **approval routing** and status updates between stakeholders.
- Configured automated **email notifications** at each stage of the workflow.
- Explored **Apache Superset** for data visualization and reporting.

Office Executive **Jan 2024 – Sep 2025**
D.S.K Paper Tubes & Containers

- Operated billing software and performed **CRUD operations** to validate and maintain business data.
- Monitored background system processes to support smooth day-to-day operations.
- Maintained digital records and operational documentation; coordinated with suppliers via email and software platforms.

PROJECTS

API Automation Framework | Python, PyTest, Requests, Allure GitHub

- Built a modular **REST API** test framework in PyTest and Requests, with separate API-client, utility, and test layers.
- Automated validation of status codes, response payloads, and business logic.
- Managed setup, teardown, and shared configuration with reusable **PyTest fixtures** (conftest.py).
- Generated interactive **Allure** dashboards showing passed, failed, and skipped tests with detailed logs.

UI Automation Testing Framework | Python, Selenium, PyTest, Docker GitHub

- Built a UI test framework for **nopCommerce** using Selenium WebDriver and the **Page Object Model (POM)**, automating user registration, login, and product search.
- Ran tests against a locally hosted nopCommerce instance in **Docker** for stable, repeatable execution.
- Captured screenshots on test failure and attached them to **Allure** reports to support debugging.

Virtual Assistant (Academic Project) | Python GitHub

- Built a voice-command assistant integrating speech recognition, text-to-speech, and external APIs.
- Plays YouTube songs, sends WhatsApp messages, and retrieves Wikipedia summaries on request.

EDUCATION

Master of Computer Applications (MCA)
University of Madras (IDE), Chennai **2023 – 2025**

Bachelor of Science in Computer Science
Jaya College of Arts and Science, Chennai **2020 – 2023**
